PROFESSIONAL SUMMARY

Full Stack JavaScript Developer and SDE Intern at BRMH.ai with experience building 3 production-ready web applications and 1 published npm package. Proficient in React.js, Node.js, Express.js, MongoDB, PostgreSQL, TypeScript, and Redux Toolkit. Skilled in RESTful API design, JWT authentication, AI integration (Gemini AI, LangGraph, MediaPipe), and payment gateway integration — seeking a full-stack or frontend role focused on scalable, user-facing products.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, GSAP, Framer Motion
State Management:	Redux Toolkit, Context API
Backend:	Node.js, Express.js, NestJS (learning), REST API Design, JWT Authentication, Google OAuth, bcryptjs, Helmet.js
AI / Real-time:	Gemini AI, LangGraph, LangChain, Mistral AI, Cohere AI, GitHub API, MediaPipe, Socket.io
Databases:	MongoDB, Redis, PostgreSQL, SQLite
DevOps / Tools:	Docker (learning), Kubernetes (learning), Git, GitHub, Postman, Razorpay, ImageKit, Vercel, Render
Analytics:	Google Analytics 4 (GA4), Google Ads

PROJECTS & PRODUCTS

traceSketch — API Tracing & Regression Testing Developer Tool | **Published npm Package** — npmjs.com/package/tracesketch

Node.js · TypeScript · SQLite · React.js · Vite · Express.js · npm workspaces · CLI

- Designed and published a privacy-first developer tool (npm install tracesketch) that captures API traces, replays failed requests, and auto-converts production incidents into regression tests — all stored locally via SQLite with zero mandatory cloud dependency.
- Built a monorepo (SDK + Collector + Dashboard + CLI) using npm workspaces and TypeScript end-to-end; single command npx tracesketch start launches the collector and an AWS/Sentry-style React dashboard together.
- Implemented full SSRF security remediation on the Replay feature (protocol/hostname validation, DNS rebinding protection, redirect blocking, response size limits, trace ownership checks); designed Trace AI as a future provider-agnostic LLM root-cause analysis layer.

RepoLens AI — AI-Powered GitHub Repository Analyzer | **FlowZint AI Hackathon, Unstop** — repolens-ai-seven.vercel.app

React.js · Redux Toolkit · Node.js · Express.js · MongoDB · Gemini 2.5 Flash · Mistral · GitHub API · JWT

- Built full-stack AI platform analysing any GitHub repository via GitHub API; integrated 2 AI models (Gemini 2.5 Flash, Mistral) to auto-generate interview questions, recruiter scoring across 3 dimensions, and README documentation.
- Engineered modular AI service architecture separating API layer and Redux Toolkit frontend state; added JWT auth and 'Roast Mode' feature for constructive repo feedback; deployed on Vercel and Render.

Highkeytess — Full Stack E-Commerce Platform — snitch-indol.vercel.app

React.js · Redux Toolkit · Node.js · Express.js · MongoDB · JWT · Google OAuth · Razorpay · Helmet.js · ImageKit

- Built full-stack e-commerce platform with 2 role-based dashboards (Buyer and Seller), Google OAuth, variant management, and Razorpay payment gateway integration.
- Implemented Add-to-Cart using MongoDB Aggregation Pipeline for real-time price calculation; secured backend with Helmet.js (CSP, XSS, clickjacking); ImageKit for optimised image delivery.

WORK EXPERIENCE

Software Development Engineer Intern — BRMH.ai — 2026 – Present

- Contributing to full-stack feature development using MERN stack and PostgreSQL; building and maintaining backend REST APIs, database schemas, and server-side logic in a production environment.
- Integrating Google Analytics 4 (GA4) and Google Ads for marketing analytics; actively learning Docker and Kubernetes for containerisation and deployment workflows.

Full Stack Developer — Self-Directed Projects & Products — 2025 – 2026

- Independently built and shipped 3 full-stack web applications and 1 published npm package — covering REST API design, database modelling, AI integration, security hardening, and cloud deployment.

EDUCATION

Bachelor of Science (B.Sc) in Information Technology — Ranchi University — Expected 2028

Intermediate (Science) — Marwari College, Ranchi — 2022 – 2024

CERTIFICATIONS

Responsive Web Design — freeCodeCamp (2026) · Generative AI and Prompt Engineering — IBM (2025) · Generative AI for All — Microsoft (2025)
